

UNFPA Humanitarian Response: ACTIVITIES & COVERAGES

From October 2018 to March 2019 period

Hygiene kits distribution

With difficult access to basic needs, individual hygiene kits were distributed, containing items to address the specific needs of women and girls as the target beneficiaries. Awareness sessions on maternal health, GBV prevention & youth Reproductive Health (RH) were provided during the kit distribution. The kits distributed include:

- 6.000 maternity kits.
- 2.500 post-delivery kits.
- 2.500 newborn kits.
- 13,000 kits for women at reproductive age.

Ensuring 24/7 Access to Quality Reproductive Health (RH) Services

There were 15 RH Clinics/Tents set up to provide immediate life-saving services to disaster affected communities: women, youth & couples at reproductive age, ensuring zero maternal death until March 2019. Coverage of RH response:

- 77,950 people received RH service & info at RH tents.
- 4,636 women accessed pregnancy check.
- 379 childbirths by health workers.
- 239 received referral for Comprehensive Emergency Obstetric Care.
- 1,656 men and women received FP services.
- 247 people living with HIV received ARV services at the 3 referral hospitals & mobile service.
- 126 midwives trained for quality maternal-neonatal care and referral for complications.

Protecting Women's Rights & GBV Prevention

12 Women-friendly Spaces (tents) established to provide psychosocial support, counseling, awareness activities on women's rights, empowerment, GBV prevention, women in disaster mitigation. The WFS facilities also serve as community-based GBV prevention & reponse (including reporting) with referral to multisectoral support. The beneficiaries of WFS:

- 44,197 women & girls accessed services & info at WFS.
- 915 women referred to RH tents.
- 81 people trained on Clinical Management of Rape & GBVIE.
- 67 GBV cases reported at WFS: psychosocial support & counseling were provided & cases were referred to multisectoral assistance for comprehensive support.
- Around 500 women joined skill trainings as part of psychosocial support.
- 60 facilitators trained on psychosocial support.
- 228 humanitarian workers of various UN & I/NGOs trained on PSEA and GBViE.

Fostering Youth Empowerment & Engagement

The 8 Youth Friendly Spaces provide various awareness sessions on youth rights, RH & gender equality, such as dating violence, puberty, good menstrual hygiene; youth empowerment on advocacy, song-video documentary & writing skills, programme design; youth engagement in assessment, discussions & advocacy activities.

- 17,732 youth accessed services, info & psychosocial activities at YFS & through outreach.
- 8 Youth Forums established at the YFS sites, 3 district-level Youth Forums each in Palu, Sigi & Donggala.
- 123 midwives sensitized on youth-friendly services.
- 100 peer educators & community organizers trained on community mobilization & referral system.
