

UNFPA INDONESIA

UNFPA, the United Nations Population Fund, works to deliver a world where every pregnancy is wanted, every child birth is safe and every young person's potential is fulfilled. Since 1972, UNFPA has been one of Indonesia's most prominent partners in reproductive health, youth, population and development, and gender equality.

UNFPA Indonesia strives to achieve three transformative results also known as the three zeros, a global commitment to end preventable maternal deaths, unmet need for family planning, and gender-based violence and harmful practices, guided by the 1994 International Conference on Population and Development (ICPD) and Sustainable Development Goals (SDGs) 2030 Agenda.

UNIVERSAL ACCESS TO REPRODUCTIVE HEALTH: OUR GOAL IN 2021-2025

Ensuring universal access to sexual and reproductive health information and services, especially for women and girls, is the goal of the 10th Country Programme 2021-2025 between the Government of Indonesia and UNFPA.

To achieve the three transformative results and SDGs by 2030, the partnership between UNFPA and the Government of Indonesia focuses on:

- Strengthening midwifery workforce
- Engaging youth for meaningful participation
- Preventing HIV among key populations
- Ending female genital mutilation (FGM) and child marriage
- Improving humanitarian-development nexus
- Maximising use of data for policy and programme

We use the human rights-based approach to reach the furthest behind and build back better, so that no one is left behind in national development and humanitarian response.

OUR PARTNERS

Collaboration and partnership are the key to achieving SDGs and Three Zeros by 2030. The Ministry of National Development Planning (Bappenas), Ministry of Health, National Population and Family Planning Board (BKKBN), Ministry of Women's Empowerment and Child Protection, Ministry of Home Affairs, BPS-Statistics Indonesia, National Agency for Disaster Authority (BNPB), and the National Commission on Violence against Women (Komnas Perempuan) are our key government partners. UNFPA Indonesia also collaborates with civil society organizations and academic partners.
