ABOUT UNFPA

UNFPA, the United Nations Population Fund, works to deliver a world where every pregnancy is wanted, every child birth is safe and every young person's potential is fulfilled.

Since 1972, UNFPA has been one of Indonesia's most prominent partners in reproductive health, youth, population and development, and gender equality.

THREE TRANSFORMATIVE RESULTS

-  Ending unmet need for family planning
-  Ending preventable maternal deaths
-  Ending gender-based violence and harmful practices

Our work is guided by the 1994 **International Conference on Population and Development** (ICPD) and Sustainable Development Goals (SDGs) 2030 Agenda.

OUR THEORY OF CHANGE

OUR STRATEGIC INTERVENTIONS

-  Policy dialogue and advocacy
-  Technical support
-  Humanitarian response

We employ a human rights-based approach to reach those furthest behind, ensuring that no one is left behind in our efforts towards national development and humanitarian response.

OUR PARTNERS

Collaboration and partnerships are pivotal in attaining the SDGs and achieving three transformative outcomes by 2030. We engage with diverse partners to drive these efforts forward.
